MESSAGE

I convey my appreciation to Swosti Group for tirelessly working to enhance Odisha's tourism potential and brand presence not just in India but globally. I am sure that this well-articulated and exhaustive magazine "Chandanprava" will go a long way in magnifying Odisha's voice as India's best kept secret.

We have all witnessed the havoc wreaked by the COVID-19 pandemic over the last nine months. But the show must go on. I take this opportunity to assure readers and friends in travel trade industry across India and the world that our guests' safety and wellbeing are paramount to us. Consistent with Odisha's stellar management of COVID-19 pandemic, facilities and services for tourists in this beautiful state are in complete compliance with COVID safety guidelines and standard operating procedures prescribed by Ministry of Health & Family Welfare, Government of India.

We have been the foremost state to have conducted a vast and inclusive awareness outreach campaign on COVID-19 risk mitigation and revival training for the tourism & hospitality sector. In collaborations with premier hospitality training institutions such as IITM and IHM, we have trained staff and managers of units across the segments of tourism and hospitality in COVID-19 safety protocols.

I beckon one and all to extensively take our assurance of safety and quality of service and experience to tourists not just across India, but across the globe, in the hope of a safer and happier future. Keep exploring Odisha, India's best kept secret.

Season's Greetings

Dear Patrons & Friends,

Greetings from Swosti Group (Hotels-Resorts-Travels-Hospitality Education)!

2020 was an incredible year. Yes, it did pose a lot of challenges not only for us as a business entity but for everyone across the globe. But challenges as we know do have silver linings. And this is something that we at Swosti Group steadfastly believe since the time of our inception. Who would have thought the pandemic actually would drive us to do better, to be better prepared and extend even more perfect services. Setting higher standards of service delivery is something that we take a lot of pride in and that is exactly what we have established since reopening of all our properties. Customer hygiene and safety are paramount to us and these have been given the attention that they so well deserve.

Stepping up our hospitality footprints, we are all set to roll into God's own abode, Puri, now. Soon, Swosti Group would unveil a 5-Star property, 'Swosti Premium Beach Resorts, of international class with 124 keys for local, Indian and international travellers and business diaspora.

While we plan for the future, we have not mitigated our efforts on our current services and offerings even a wee-bit. With continuous focus on renovation of infrastructure, up gradation of staff training programs, businesses processes and help desk management, we continue to add more value to our customer experiences.

Last but not the least, we owe all our successes to our patrons and well-wishers and that is something we never lose our sight-off. I wish everyone greater success ahead.

Thanking You,
Jitendra Kumar Mohanty, MHCIMA
Chairman & Managing Director

GOURMET

Bringing Out the Perfect Flavour!

'Gourmet', the word has a mystic aura to it. Epicureans find their own interpretations. The thought of a master chef in absolute control over his craft, flirting and caressing handpicked ingredients and creating exceptionally visually captivating cuisines can get anyone go weak on their knees. For us, "The Gourmet", at one end is about connecting to classic Odia cuisines in their most authentic forms and on the other end it's a multi cuisine restaurant serving global delicacies.

Ever fancied a "Mansa Aloo Tarakari" or a "Kalara Checha"? Or a good ol' "Dalma" and the "Macha Checha"?

For the uninitiated, these are names of some of the most popular dishes prepared and perfected in the land of Lord Jagannath - Odisha.

While authentic Odiya cuisine might not be readily available in too many places, Hotel Swosti Premium in Bhubaneswar will now give foodies a taste of the State's culinary legacy. A visit to The Gourmet restaurant, located at the lobby level of Swosti Premium, is a must if you want to sink your teeth into some flavourful local delicacies.

While there is enough in the menu for non-vegetarians, vegetarians will have plenty to choose from as well. The chefs have also taken great care to put up a separate Jain food section, which does not use any onion or garlic.

For those who would rather stick to their familiar favourites, the restaurant has a wide variety of dishes from around the country as well as staples from international cuisine - ranging from soups, salads and sizzlers to pasta, pizzas and kebabs. You can wash all this deliciousness down with a glass or two of Merlot or Chardonnay paired perfectly with your meal.

The restaurant also serves an elaborate buffet breakfast every day. For picky and small eaters, there is an à la carte menu to choose from.

A visit to The Gourmet is about discovering the authentic Odia cuisine and of course you get to indulge in much more!

PRINCIPAL'S MESSAGE

We have completed our fifth year successfully!!! This year has been a roller coaster ride for all of us. Besides the regular challenges we were facing, the biggest one came in the form of Skill India, where we successfully achieved two gold medals in regional level and a bronze medal in national level which boosted our motivation to another level. Swosti group stood by us as a rock and our sailing was much smoother than expected.

We are growing leaps and bounds and every day various brands are coming forward to be a part of our success story. Our students are shining globally and ensuring us that we are in the right track.

All around the country, parents and educators are searching for one last

piece of advice to give students as they start college life. It's tempting to advise them to be themselves, to make smart choices, to find their passion...and of course, not to forget to call home. There's nothing wrong with those messages. But I will advice them to place responsibility for their education most squarely where it belongs – on them. That's why I like to remind students that each of them has the ability and little stretching of their capabilities will fetch them what they seek.

After all, at most institutions, the essential ingredients are: faculty-scholars who want to work with students, curriculum inviting breadth and depth, countless research opportunities, and diverse and talented students.

Then there are innumerable co-curricular opportunities for internships, peer leadership, sports, service, performance, and student government.

But students have to choose learning; they have to go deep into their education to seek impactful discoveries they won't forget. We have observed that students more frequently take steps to improve their performance when they trust their teachers' commitment to helping them. All the staff including faculties in SIMSS have soaked themselves in this positive culture.

My heartiest congratulations to SWOSTI group, SIMSS and all the brands those are associated with us!!!!
